

TAE INSIGHTS

Hello, Curious Minds.....

September at Trinity Academy of Engineering.

In the month of September, our campus buzzed with innovation and celebration. Engineers' Day brought out the brilliance of our engineering minds, while hackathons and poster competitions showcased our students' talents.

Behind the scenes, editing this newsletter was a delight. It's our pleasure to share the exciting events and achievements that make our academy shine. Stay tuned for more campus updates and stories in the months to come!

Celebrating 'Engineer's Day' with a Showcase of Talent

Engineer's Day at our college is a celebration of innovation, creativity, and the brilliant minds shaping our future. Each year, on this special occasion, on 15th September we come together to honor the incredible contributions of engineers to society. The day is filled with excitement, as students and faculty engage in various activities, showcasing their engineering prowess.

One interesting fact is that Engineer's Day is celebrated on different dates worldwide, but it often pays tribute to the birthday of Sir Mokshagundam Visvesvaraya, a renowned Indian engineer. His contributions to dam design and flood control systems have had a profound impact on India's infrastructure.

IDEATHON COMPETITION

Celebrating Engineer's Day in style, our college recently hosted an exhilarating Ideathon Competition that left everyone buzzing with creativity and innovation! The event brought together the brightest minds on campus to showcase their problem-solving prowess.

What makes this competition truly remarkable is its legacy. This Ideathon competition serves as a fitting tribute by encouraging students to channel their inner engineers and devise ingenious solutions to real-world challenges.

With students brainstorming ideas and collaborating tirelessly, the event was a melting pot of innovation, making Engineer's Day a memorable celebration of both past accomplishments and future aspirations.

In a celebration of innovation and engineering excellence, TAE is set to host an exhilarating Poster Competition on Engineer's Day. Students from various engineering disciplines will vie for top honors as they create visually stunning posters that depict engineering marvels, sustainable solutions, and futuristic technologies.

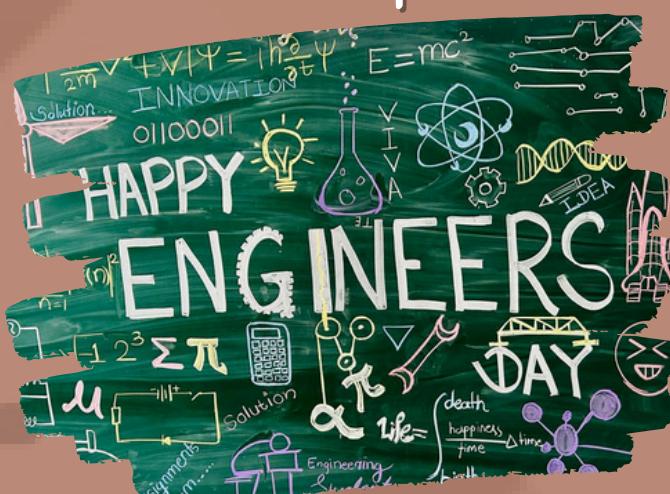

SIGNATURE COMPETITION

With an array of styles and designs on display, the Signature Competition highlighted the multifaceted talents of our future engineers. The competition saw students craft unique signatures that reflected their engineering spirit and ingenuity. It was an opportunity for participants to blend their technical prowess with artistic finesse. The winning signatures not only exhibited aesthetic appeal but also conveyed a deep connection to the engineering field.

Varun Kakapuri, Advait Keskar inspired students about their role and responsibilities toward their career. Trinity Academy of Engineering looks forward to continuing such celebratory events, fostering a culture of appreciation and innovation within its campus.

POSTER COMPETITION

TECHNITI EVENT

"वृक्षवल्ली आम्हा सोयरे वनचरे पक्षीही सुस्वरे। आलविती॥ येणे सुख रुचे एकांताचा वास। नाही गुणदोष। अंगी येते॥"

१५ सप्टेंबर रोजी ट्रीभीटी अकॅडेमी ऑफ इंजीनीरिंगमध्ये वृक्षारोपण, वृक्षसंवर्धन तसेच जलसंवर्धन असे कार्यक्रम आयोजित करण्यात आले.

सर्वच मनुष्याला सतत निसर्गाच्या समिक्षात राहायला आवडते. साथे आपण कुठेतरी फिरायला जायचा विचार केला असताना आपण निसर्गरम्य ठिकाण निवडतो. यामागचे कारण म्हणजे आजूबाजूचा हिंदवागर आणि मनाला मोहित करणारा व आपल्या दृष्टीला शांत करणारा निसर्ग पाहायला खूप आवडतो.

आपल्यातील कोणी विचार करतो का हे वृक्ष नसते तर? जर हे वृक्ष नसते तर, आपले जीवनच इतके सुरक्षित चालले आहे तितके सुरक्षित चालले नसते. भरपूर प्रमाणात वृक्षतोड झाल्याने आपल्या आजूबाजूच्या वन क्षेत्र कमी होत चालले आहे.

मोदकांचा प्रसाद केला ..
लाल फुलांचा हार सजवला ..
मखर नटून तयार झाले ..
वाजत गाजत बाप्पा आले ..
गुलाल फुले अक्षता उधळे ..
बाप्पाच्या स्वागतासाठी जमले सगळे !!

Badminton is a sport that has gained immense popularity worldwide. Its origins can be traced back to ancient civilizations in countries like China, Greece, and India. The history of badminton in Pune city, formerly known as Poona, is being unravelled with every passing day.

The game was first introduced to Pune city during the British colonial era. The British officers and soldiers stationed in India brought with them this exquisite sport, which soon captivated the local populace. The city's enthusiastic sports lovers quickly adopted badminton, making it an integral part of the sports culture in Pune.

Though badminton was initially played by the elites, it soon became a widespread and accessible sport for people of all walks of life. The sport gained significant recognition and popularity under the guidance of eminent personalities like Radhakrishna Bhimsen Palke and Abdul Nabi. These individuals played a crucial role in promoting and organizing badminton tournaments, which attracted participants from all over Pune city.

This club, located in the heart of the city, became the hub for badminton enthusiasts, offering them state-of-the-art facilities to hone their skills. The inclusion of Poona as part of the club's name showcased the city's commitment and contribution to the sport.

The establishment of the Poona Badminton Club in the late 1920s marked a significant milestone in the history of badminton in Pune.

Pune's love for badminton continued to grow, and the sport soon became an integral part of the city's identity. Numerous national and international badminton tournaments were held in Pune, drawing top players from all corners of the globe. The city's passion for badminton and its ability to organize successful tournaments led to Pune becoming one of the prime destinations for the sport in India.

From Pune To The World The Birth of Badminton

Hey there, fellow engineers!

Varun Kakapuri here, your friendly neighborhood exam survivor, submissions ninja, and attendance enthusiast. 🎓

Let's talk about exams first. You know it's that time of the year when the library becomes your second home, and coffee is your lifeblood. My advice? Embrace the chaos, and remember, you're not alone in this struggle. We're all in the same leaky boat! ⚓

Insems, endsems, practicals - they're like a rollercoaster ride with ups and downs, and we're just trying not to lose our lunch! 🍔

Now, submissions... Ah, the art of last-minute printing, and the thrill of submitting assignments with seconds to spare. Pro tip: Invest in a printer and a reliable alarm clock! 🕒

And of course, the 75 percent attendance rule - the unsung hero of college life. It's like a friendly reminder that you can't hibernate through the semester, even though you might want to! 😴

A WORD FROM THE ITSA President

But here's the twist: College isn't just about acing exams and meeting attendance requirements. It's also about forming connections, learning from each other, and developing those all-important social skills.

So, remember, my fellow academicians, while you navigate through the sea of exams, assignments, and attendance, don't forget to engage with your peers. You'll discover that some of your best lessons are learned outside the classroom, in the realm of friendships, teamwork, and shared experiences.

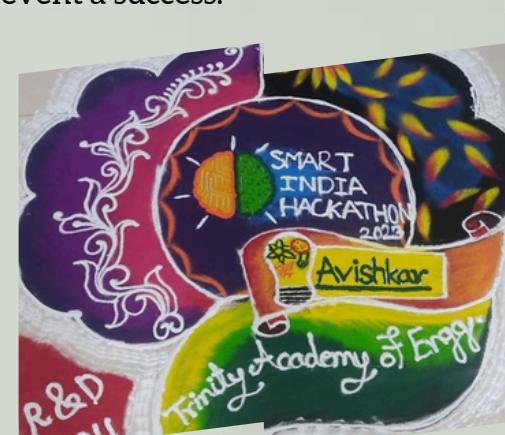

Stay curious, stay connected, and let's conquer this academic adventure together! 🎓🌟

Warm regards,
Varun Kakapuri

On September 21st, 35 dynamic teams came together at Trinity Academy of Engineering for our internal round of the Smart India Hackathon. The event buzzed with innovative ideas and a commitment to solving real-world challenges. The dedication and creativity displayed by all the teams were commendable. They have taken the first steps toward a smarter, more sustainable future. These young minds are a testament to the power of innovation and collaboration. We extend our heartfelt gratitude to all the teams for their hard work and passion in making this event a success.

Smart India Hackathon: Trinity Academy's Internal Round

Together, we are moving closer to realizing a brighter and more promising tomorrow. Stay tuned for more updates as we witness our students' transformational impact on India's technological landscape.

As we progress in this journey, stay tuned for updates on our teams' advancements. They are poised to represent Trinity Academy with distinction and contribute to meaningful changes.

Avishkar Poster Competition: Uniting Minds. Igniting Innovation

On September 21st, Trinity Academy of Engineering hosted the annual Avishkar Poster Competition, where students from diverse branches—Computer Science, Information Technology, Electronics and Telecommunication, Civil, and Mechanical Engineering—showcased their inventive projects. From groundbreaking software to mechanical marvels and civil engineering feats, the posters displayed a rich tapestry of multidisciplinary innovation. This event not only encouraged healthy competition but also celebrated the commitment and ingenuity of our students. Congratulations to all participants and winners, and thanks to the faculty and organizing committee for this success. The Avishkar Poster Competition has set a high bar for innovation at our college, paving the way for a future filled with groundbreaking projects.

Not only did the Avishkar Poster Competition encourage healthy competition among the participants, but it also served as a platform to celebrate the commitment and ingenuity of our students. Their hard work and innovative thinking were on full display, inspiring everyone present.

-Priyanka Bangale (TE IT)

On September 3rd, Trinity Academy of Engineering hosted a Hill Marathon that attracted participants from various parts of the city. The marathon

featured a challenging course that tested the fitness and endurance of the runners. The event started early in the morning and saw a large turnout of enthusiastic individuals eager to take on the challenge. The winners of the marathon were awarded prizes for their outstanding performances, and all participants received certificates of participation. The event was a huge success, with everyone enjoying the challenge and pushing themselves to their limits.

HILLSIDE HUSTLE Marathon in the Hills

The Hill Marathon at Trinity Academy of Engineering was a great opportunity for individuals to test their fitness and endurance while enjoying the beautiful natural surroundings. The event showcased the importance of physical fitness and the benefits of regular exercise. It is hoped that more such events will be organized in the future to promote a healthy and active lifestyle.

-Arti Chaudhari (TE IT)

From September 11th to September 14th, GDSC Trinity Academy of Engineering orchestrated an intensive C/C++ bootcamp for second, third, and final-year software engineering students. The program delved into honing coding skills and deepening understanding of these fundamental programming languages. Through hands-on exercises, collaborative projects, and expert-led sessions, participants gained practical insights into software development. The bootcamp not only enhanced proficiency in C/C++ but also fostered a collaborative and innovative mindset. It prepared students for real-world coding challenges, ensuring they are well-equipped for future success in the field.

C/CPP Bootcamp

With the rising demand for skilled C/C++ programmers in the tech industry, this bootcamp provided an invaluable opportunity for students to enhance their coding skills and gain a strong foundation in these programming languages.

Trinity Academy's GDSC team plans to continue organizing such educational initiatives to empower students with in-demand tech skills and prepare them for a competitive job market.

- Advait Keskar (TE Comp)

Trinity Academy of Engineering celebrated **Teacher's Day** with enthusiasm and gratitude, honoring the dedicated educators who shape the future of their students. The celebrations began with a warm welcome extended to all teachers, creating an atmosphere of respect and camaraderie. Students and faculty members came together to express their appreciation for the tireless efforts and guidance provided by the teaching staff.

On Teachers Day, the students replaced the teachers in classrooms and taught their juniors.

Teacher's Day GRATITUDE

- Priyanka Pawar (TE Comp)

काव्यकला

वडील

नाही माझा शेतकरी
स्वतः हुन कापड घालाया देतो आम्हा बरी
जेव्हा जेव्हा सर्वी केले चरण वडिलांचे
दिसून येतात कष्ट त्यांचे
मला मोठ करण्या मागचे
किंतु सोसता तुम्ही चटके उन्हाचे
आम्हला घडवण्या ठेवता जीव गहाण
कसे परत करू तुमचे हे रुग्ण...
- माणिक डोणे

प्रवास

चालता चालता कित्येक मैल निघून गेले,
राहिले न कुणी सोबती
चालता चालता सर्व निघून गेले ||
प्रवास वाटला सोपा पण काटे अनेक टोचून गेले,
पाऊले चालता चालता दमून गेले ||
आयुष्य हे न जगण्यासाठी,
भेटले वरदान मरण्यासाठी,
स्वप्रामधे न रमण्यासाठी,
आजनम फक्त लढण्यासाठी,
स्वर्ग हि वाट पाहतो जे तत्पर सदा मरण्यासाठी ||

- वैष्णव वरबडे

एक लड़की

सीधी पर उलझी हुई एक लड़की
तू हसती है बिना किसी ढिड्किक के,
तू रो लेती है सिर्फ घुट घुट के,
तू खुश होती है छोटी सी चीजों से,
तू रुठती है बहोत बड़ी बातों से,
तू एक बार रुक जाए,
तो मूळ के कपी भी ना जाए,
तू एक बार ठान लें,
तो पूरा करके ही मान ले,
तू बकबक कर लेती है,
अपनो के सामने,
वही चुप रह लेती है,
दूसरों के सामने,
तुम्ही कोई पसंद आए,
तो उसे पूरी जिंदगी ध्यार ही करे,
इतनी सीधी साथी लड़की को,
फिर भी दुनया समझ क्यों ना पाए..

- सिद्धी गव्हाणे

STAY TUNED

FOR FURTHER CLICKS IN TAE

College life is that part of your life where you actually grow as a human. During this span, we get a direction for our further journey.

I Sanjana Sanjay Thombare student of Trinity Academy of Engineering would like to share my experience in the college till now. It has been only few days that the college has started. The very first day when I stepped into this college the the first thing that flattened me was the green rich environment of the college. The program arranged under induction are actually very helpful for us to understand and know the college. The first day of induction program, that even included parents, was very informative for us. Overall, my experience in TAE has been very nice and enjoyable. I am happy and enjoying this new phase of life, where I feel I will definitely create many more memories.

- Sanjana Thombare

It is truly entirely different from school life and I experienced it here. In TAE I was open to new life it was like totally different it begin from the first day of my college.

Though on my first day I afraid a lot & thinking about will I get good friend? Will I get mixed with all? Or could I be able to learn? Ending up with such thought I heard our principal sir's motivational speech in our first session. It made me inspire and motivated to open the doors of my success.

I succeed again & I achieved and overcome my stage fear this was only possible because of the motivation and inspiration given in our college to achieve the talent within us.

- Vaidehi Doke

MY FIRST EXPERIENCE IN TAE

I never forget the moment that I received the news of my passing the university entrance examination. Through the cap round process I get an Trinity academy of engineering. In which the college is spread over an area of 110 acres.

I really feel so happy when I visited at 'TAE'. The campus is one of the most best campus that I ever seen. Through the Indication program I am able to participate in many games such as 'Box cricket champion', 'Carrom championship' and many others. The experience can be weird, might be good and might be bad, might not interest me at a time. but expect anything unexpected to happen. College experience prepares me for all uncertain thinks like this. It is a beautiful and perfect blend of joy and hardship.

- Akansha Kumbhar

ORIENTATION DAY DSE Students Get Acquainted with Trinity

The event, which took place on 25th September, was designed to introduce the newcomers to the college campus, faculty, and the exciting journey that lies ahead. During the program, students were provided with essential information about the DSE curriculum, college facilities, and academic support services. They also had the opportunity to meet their professors and fellow students, fostering a sense of community and belonging.

The induction program aimed to ease the transition of these students into college life and ensure that they have a strong start to their academic journey. Trinity Academy is committed to providing a supportive and nurturing environment for all its students, and this event was a reflection of that commitment.

As the new DSE students embark on their educational adventure at Trinity Academy of Engineering, the college wishes them success and encourages them to make the most of the opportunities that lie ahead.

-Gaurav Jagtap (TE EnTC)

Advisory Board's Strategic Meeting

Shaping Tomorrow's Engineers Today

The objective is to ensure sustainable growth while optimizing resource utilization for the benefit of both students and staff.

Curriculum enhancements are another topic of paramount importance. Proposed changes and additions to the academic curriculum will be discussed, with a keen eye on aligning these adjustments with industry trends and the evolving needs of students.

Community engagement will be a key area of focus. Trinity Academy of Engineering recognizes the importance of forging strong bonds with the local community and industry partners. The meeting will explore initiatives aimed at strengthening these relationships to further enrich the academic and professional experiences of its students.

Trinity Academy of Engineering remains steadfast in its commitment to fostering innovation and excellence in engineering education. This board meeting represents a critical juncture in the institution's journey, and the outcomes and decisions made during this gathering will shape its future endeavors. Stay tuned for updates on the developments arising from this pivotal meeting.

Taking the first step towards a bright future..
